To: Craig Roets,
Program Security Manager
Subject: Letter of Recognition

It is with great pleasure that during the past two years in northern Iraq, I never met such excellent and true professionalism security outfit regarding; PSD-Convoy Operations (Low Profile) and Static Security to Environmental Chemical Corporation International (ECCI). Mr. Roets your ability to pursue such excellence has lead a competition for Safenet in that is still growing with experience, honor, and commitment to the client, as well to the employees of Safenet. These core values included but not limited to:

- Planning
- Execution
- Operational
- Discipline
- Management

Your team's ability to adapt to hostile terrains and extreme weather conditions has made Safenet a valuable asset and unique towards its services in maintaining flawless discretion towards the safety of ECCI clients and its local nationals. Safenet team's fostered the paradigm and excelled tremendously in dedication in setting the bar for security in reconstruction in Iraq. It has been a pleasure working with them. In addition, Mr. Roets your support as the Program Project Security Manager for Northern Iraq, ECCI has been excellent in that your true expertise makes you a valuable caliber to ECCI/Coalition forces in completing the mission in rebuilding Iraq. Thank you for all you hard work.

Godspeed,

Luis A. Arellano,
Regional Security Manager of Northern Iraq
Military Liaison (USN)
PMO-ECCI Operations
